

## Press Release

# PORTABLE SPACED360 Bluetooth Wireless Speaker Delivers Fully Immersive Music Experience

The PORTABLE SPACED360 is set to shake up the UK market of wireless speakers. Shattering any preconceived ideas of how a Bluetooth-enabled portable speaker should look or sound, PORTABLE SPACED360's design was deliberately created to deliver a dynamic yet immersive sound, effortlessly wrapping listeners in full spectrum audio wherever they are.

airSOUND™ Technologies joined forces with the global award-winning designer Frank Nuovo to create PORTABLE SPACED360. Frank was fully inspired by airSOUND™ technology and

created an industrial design that perfectly communicates the revolutionary technology that delivers the 360 degree audio experience. The three visible speakers emphasise the hi-fi credentials of this powerhouse speaker.

Meticulously engineered and powered by patented airSOUND™ Technology, the portable speaker with apt-X Bluetooth creates an immersive, infinite 'sweet spot'. By using three high powered 2" neo speakers and three mass loaded bass radiators that are all equally spaced, the resulting forces are balanced, bass response is improved, and cabinet vibration is greatly reduced. The highly tuned system of PORTABLE SPACED360 is designed to wrap listeners in a 360 degree sound-space.

### **Original, out-of-the-box design looks as good as it sounds**

This breakthrough design perfectly balances form and function; with 3D metal grilles formed around airSOUND™ Technology, PORTABLE SPACED360 breaks away from traditional design language for better sonic performance. Engineered for durability, this pick-up-and-go speaker measures only 22 x 19 x 8.8cm and weights just over 1KG.

The sleek base charger means recharging is easy, making this extraordinary piece of audio kit ultra-portable or thrown in a back-pack to enjoy crystal clear wireless audio on the go.

### **Fully charged to experience music anytime and anywhere.**

With simple set-up and active NFC pairing, PORTABLE SPACED360 connects to any Bluetooth device within seconds enabling friends to share their favourite playlists instantly. Boasting up to 14 hours of music playback, fully recharged via the sleek base charger within three hours. Apt-X Bluetooth connectivity with NFC – ensure fast and easy connection to any Bluetooth audio device and the highest quality audio streaming.

### **Immersive sound, innovative technology**

PORTABLE SPACED360 is the result of more than 40 years of acoustic research and experience in sound engineering by Airsound Technologies Ltd., a British company, focused solely on producing unparalleled sound quality for today's connected generation.

#### **About Orbitsound**

Orbitsound is a British company of audio engineers, founded by Ted Fletcher in 2009. Airsound technology is the culmination of his 60 year career in audio - a way to reproduce true stereo from a single loudspeaker box. Orbitsound brings Ted Fletcher's revolutionary technology to your home and allows you to hear sound, rich in stereo content, the way it should be heard. Since Airsound's invention, Ted and son Daniel Fletcher have been constantly innovating and creating better ways of delivering Airsound; redefining the quality of audio possible in the home and on the move.
