Play together

You and your friends have a thing for music.
Your Spaced360 has a thing for Bluetooth devices.
Togetherness = a 360° sound space where everyone
can bask in the sonic sweet spot.

Beach? Rooftop? Home? Spaced360 will play your
music wherever you want, with whoever you want.

It gets even better if your phone has NFC. Just bring
up your playlist, touch the phone on the Centre Key
to pair, and boom, your music is on.

Share your Spaced360, it's not into phone monogamy,
everyone can pair and play.

Flip the page and get connected.
